**FOR IMMEDIATE RELEASE**

## **MGreen Productions voted “Best of Georgia”**

*Local multimedia company honored by Georgia Business Journal readers*

SAVANNAH, GA. (Dec. 1, 2021) - Local multimedia company MGreen Productions is among the Best of Georgia® according to a recent poll of *Georgia Business Journal* readers. Businesses chosen for this distinction each received nominations from readers before being thoroughly vetted and receiving input from the publication’s editors.

CEO and President MiQuan Green attributes his company’s success to the support he receives from his local community. “We couldn’t do it without you,” he said. “We are so grateful to be chosen for this award, and we are honored to be among such an elite group of honorees.”

Green founded his photography business in 2012 when he was 12 years old. Since then, MGreen Productions has expanded to offer full-scale printing, graphic design, and a host of other multimedia services. “Our partnerships with local government agencies, schools, and non-profit organizations have allowed us to experience exponential growth,” Green said. “Our goal is to continue this expansion into outlying markets while still delivering high-quality results to our clients right here in Savannah.”

According to a press release from *Georgia Business Journal*, Best of Georgia® winners are chosen from “more than 25 broad business and community sectors” and are honored at three distinct levels: Best of Georgia®, Best of Georgia® regional winners, and honorable mentions. MGreen Productions will be included in the publication’s “Best of Georgia® Keepsake Annual” and will participate in a statewide publicity tour in 2022.
